Tyson Security Pty Ltd
Unit 2, 76 Alpha Road
Willoughby, NSW 2068

Attention: David Evans

Dear Mr Evans

Product Endorsements – Tyson Security - Tylink 2000 and 3000

I am pleased to advise that the Tyson Security - Tylink 2000 and 3000 products have been endorsed by the Security Construction and Equipment Committee (SCEC), for Secure Area applications. These products will be listed in the Locking Devices category of the Security Equipment Catalogue (SEC) with the following condition:

- *The product must be fitted with a SCEC endorsed keying system, rated for the area in which it will be installed, i.e. Secure Area.*

The endorsement is issued for the products as supplied and tested. If there are any changes in the product's design, operation or manufacturing processes, the supplier must contact the SCEC Chairman to arrange for the product to be re-evaluated and possibly retested. Failure to do so may result in the product's endorsement being suspended.

Please note that any promotion or advertisement of the product must not make reference to ASIO or T4 Protective Security, but may refer to the product as being 'SCEC Endorsed.'

If you require further assistance, please do not hesitate to contact me directly on (02) 6234 1516.

Yours sincerely

Felix Pantaleo
Chairperson

Security Construction and Equipment Committee
